

CERTEXTM MEMPHIS

LOAD TESTING & LIFT ENGINEERING

PRECISION-TESTED RIGGING SOLUTIONS WITH ONE OF THE NATION'S LARGEST AND MOST CAPABLE TEST BEDS.

When the weight is massive and the margin for error is zero, you need rigging you can trust—rigging that's been tested and proven. At CERTEX, our load testing services are designed to give you complete confidence in your lifting equipment. From complex engineered lifts to routine certification, our capabilities go beyond industry standards to deliver safety, accuracy, and peace of mind. Our Memphis facility is home to one of the largest load test beds in the country—measuring 380 feet in length and capable of testing up to 3 million pounds. Backed by precision equipment, certified inspectors, and full documentation, CERTEX is your partner in performance and safety.

550 ton turbine lifter load test

Load test of a tainter gate/flatrope

235 ton load test of a 20 ft. (yellow) turbine-lifting spreader beam

195 ton load test of a ladle hook

15 ton 4-point lifter vertical test

**HAVE A LIFT COMING UP?
LET'S GET YOUR GEAR TESTED
WITH CONFIDENCE.**
